

# Lease Your Land to Texas Parks and Wildlife

Two hunters are silhouetted against a sunset sky. One hunter is standing and looking out over the horizon, while the other is crouching down, possibly preparing a bow. They are on a grassy hill.

We want to pay you to provide a two-day public hunting opportunity on your land. We are interested in purchasing hunts for white-tailed deer, mule deer, pronghorn, feral hogs or exotics. The price is negotiable, and you control how the hunt is run. We'll handle the selection of hunters and the payment of the negotiated lease fee.

Offering public hunting on your land is a great way to achieve your management goals and to support the hunting heritage of Texas.
